

Format for Reduction Projects

The report may include the following information:

- 1) *Description of the project* Name, contact, reason for the quantification of the reduction, brief explanation, geographic location, life cycle expected, period of base line and market conditions for each activity.
- 2) *Limits for Project evaluation:* Limits for each activity including primary effects, secondary effects and an explanation justifying the exclusion of the insignificant secondary effects of each of the project activities.
- 3) *Description of base line selected:* Include the identified baseline candidates, estimated emissions and estimated performance.
- 4) *Estimated reductions of GHG emissions.* Estimate annual and total reductions
- 5) *Description of monitoring plan.* Description of the data collecting process, frequency and storage information system.
